

Intent, Implementation, and Impact

Intent

To provide young people with a bespoke tuition programme within a safe and nurturing environment, empowering them to reach their full potential.

To implement learning opportunities which focus on improving the physical and mental wellbeing of young people so that they are equipped to maintain a positive and healthy lifestyle.

It is our aim to shape young people into well-rounded and resilient citizens, who are equipped with the knowledge, skills and attitudes necessary for the next stages of their educational experience.

Implementation

Young people are exposed to a bespoke tuition programme in an environment which is conducive to maximising progress.

Diagnostic profiles which identify strengths, barriers to learning and areas for development and curriculum implementation is tailored to this. The necessary reasonable adjustments are then made within our classrooms to ensure equitable access for all.

The promotion of spiritual, moral, social and cultural development is integral to our values and is interwoven throughout the tuition programme.

Impact

Using a range of assessment strategies we measure the emotional and academic progress of our young people.

Through the use of smart targets and daily reinforcement we ensure small step progress is being made and evidenced.

The voice of the young person is at the heart of the programme we deliver; this informs our assessment for learning cycle.
